

CS 7

Quick Guide

Match Selection

[Betfair Exchange website]

- Check **Flashscore** *[optional]*
- Go to **Betfair Exchange**
- **Sort** matches by "Matched amount" & "Match Odds"
- You can pick almost any match with **great liquidity** on the Correct Score market (x10 stake)
- **Skip** heavy favourites (1.01-1.15), first-round matches, unpredictable teams/matches/leagues (MLS for example)
- **No other research** is needed (*chances are very low that you can come up with something that the market doesn't know already in these high liquidity matches*)
- Fill in the CS7 Official Tracker with **pre-dutching details** (*date, time, league, teams, odds, predicted scores, etc.*)
- You can use **match odds, under/over and BTTS odds** to outline your own predicted score

Match Selection

[Professional Software]

- Check **Flashscore** *[optional]*
- Go to **Professional Tool**
- **Filter** only matches with good liquidity on the Correct Score market (x10 stake)
- **Skip** heavy favourites (1.01-1.15), first-round matches, unpredictable teams/matches/leagues (MLS for example)
- **No other research** is needed (*chances are very low that you can come up with something that the market doesn't know already in these high liquidity matches*)
- **Extract** all the details (match, scores, odds) and **save** them for future analysis
- Fill in the CS7 Official Tracker with **pre-dutching details** (*date, time, league, teams, odds, predicted scores, etc.*)
- You can use **match odds, under/over and BTTS odds** to outline your own predicted score

Dutching

[Betfair Exchange website]

- Go to **Correct Score** market
- Make sure the **liquidity is high** enough (x10 your stake) and the **back book is low** (not more than 115%, but the lower the better)
- Insert the **details** in the Excel Calculator tab
- Dutch the 7 scores, sorted by odds: **1st, 2nd, 3rd, 4th** and **10th** favourite score, but also **17th** and **18th** favourite scores
- Use the **stakes** from the calculator or use any dutching calculator
- Place the **bets**
- Trade out in the **last minutes** if any goal scored brings you a loss [*optional*]
- **Record your screen** / Screenshots of your trading
- Fill in the CS7 Official Tracker with **post-dutching details** (*potential profit, liquidity, back book, etc.*)

Dutching

[Professional Software]

- Access the **software**
- Go to **Correct Score market - dutching** feature
- Make sure the **liquidity is high** enough (x10 your stake) and the **back book is low** (not more than 115%, but the lower the better)
- **Sort** by odds from lowest to highest
- Dutch the 7 scores, sorted by odds: **1st, 2nd, 3rd, 4th** and **10th** favourite score, but also **17th** and **18th** favourite scores
- Use the **dutching** feature and place the **bets**
- **Flat stake** (2% from your bank)
- Trade out in the **last minutes** if any goal scored brings you a loss [*optional*]
- **Record your screen** / Screenshots of your trading
- Fill in the CS7 Official Tracker with **post-dutching details** (*potential profit, liquidity, back book, etc.*)

Track Results

- Access the **CS7 Official Tracker**
- Access **Flashscore** or any other relevant website
- Fill in the CS7 Official Tracker with **post-match details** (FT score, odds, rank, any other useful info)
- Use the **recording** to see these details (for Betfair Exchange users)
- Or use the extracted data that you previously saved (if you have a professional tool)

Analysis

- Track 100+ trades (the more, the better accuracy of the analysis)
- Check the Dashboard tab monthly
- Analyze (see what leagues are performing, if the ranks are still profitable, see the ROI, check the prediction results, etc.)
- Improve and optimize constantly

Additional information

- Start with **paper trading** if you feel comfortable that way
- Start with **important** leagues
- Use a **flat stake** (2% from the bank) and **refresh it** monthly
- No need for time-consuming **research** from your side (but we don't stop you from doing that)
- **Believe** in the system, it is simple but it's working
- Think about investing in **professional software** (for £50 discount on Bet Angel's 1-year license follow this [LINK](#) and use this code "RCS19" (*or contact us for a new one*))

Congratulations
